

Dear [REDACTED]

I am writing to recommend Hunter Bailey. They worked with us at Carbon Robotics and reported directly to my organization in my position as Vice President of Field Operations.

As an employee, Bailey exceeded expectations by being one of the first members of what is now a world class organization. Bailey was, and continues to be a foundational piece of our team.

Bailey approaches his works in a conscientious and professional manner, they also take extreme ownership in projects they're involved with as well the customer experience they are responsible for delivering.

I have no doubt that Bailey will create tremendous value to your organization while also fostering a positive and inclusive work environment.

Should you have any further questions about them, feel free to reach me at [REDACTED]

Best Regards,
